PROFESSIONAL SUMMARY

Full-stack web developer with hands-on experience in building responsive and scalable web applications using the MERN stack. Skilled in frontend and backend development, REST API integration, and database management through academic projects and practical training. Passionate about creating efficient software solutions, continuously learning modern technologies, and contributing to innovative development teams.

TECHNICAL SKILLS

- **Languages:** JavaScript, Python, Java
- **Frontend:** HTML5, CSS3, React.js
- **Backend:** Node.js, Express.js
- **Databases:** MySQL, MongoDB
- **Cloud & Tools:** Git, GitHub, Vercel
- **Soft Skills:** Teamwork, Problem Solving, Communication, Time Management

PROJECTS

Cloud User Behavioural Analytics (UBA) System (Major Project)

MERN Stack + Python (Machine Learning) | Live Demo: cloud-uba.vercel.app

- Architected a high-performance, decoupled system using a Node.js API gateway and a Python-based Machine Learning engine for real-time insider threat detection.
- Implemented an unsupervised Isolation Forest algorithm to establish dynamic user behavioural baselines and detect anomalous activities in cloud environments.
- Designed and integrated Zero Trust security architecture including JWT authentication, Role-Based Access Control (RBAC), and device fingerprinting.
- Developed a real-time SOC alerting system using Socket.io for instant anomaly notifications and monitoring.

Blog Management Platform

MERN Stack | Live Demo: blog-master-beta.vercel.app

- Designed and developed a secure, responsive blog management system with category-based filtering and individual blog detail pages.
- Implemented authentication, comment system, and contact feature to ensure interactivity and user engagement.
- Enhanced overall content creation workflow, ensuring seamless navigation and a better reader experience.

Weather Forecasting Web App

React.js + OpenWeather API | Live Demo: climacast-app.vercel.app

- Developed a responsive weather application using OpenWeather API to display real-time current conditions and 5-day forecasts with city-based search and auto-detection of the user's location.
- Enhanced user experience through interactive charts, clean UI, and optimized API handling for faster performance.

Full Stack Authentication System

React + Node.js + Express + MongoDB | Live Demo: secure-auth-app.vercel.app

- Built robust JWT-based login with role-based access control and encrypted user management.
- Implemented protected routes, persistent sessions, and seamless frontend-backend integration.
- Delivered a scalable, secure user experience with smooth API communication.

INTERNSHIP

Web Development Intern - Hebbale Academy | 45 Days

- Worked on front-end and back-end web development using HTML, CSS, JavaScript, and Python.
- Gained practical experience with AWS services including DynamoDB (NoSQL) and cloud deployment.
- Collaborated in a team to deploy functional modules and improve UI/UX features.

MEAN & React JS Training – MCA PL | June 2025

- Completed intensive training on full-stack development using MongoDB, Express.js, Angular, Node.js (MEAN), and React.js, building scalable web applications through guided projects.
- Earned Grade "B" certification, demonstrating strong proficiency in modern web development technologies.

EDUCATION

- **Master of Computer Applications (MCA)** - GIET University, Gunupur Odisha | 2024 – 2026 | CGPA: 8.21
- **B.Sc. in Physics (Hons.)** - Berhampur University, Berhampur, Odisha | Graduated 2023 | CGPA: 7.2
- **Higher Secondary Education (+2 Science)** - Inspire Science Res. H.S. School, Nayagarh, Odisha | 2020 | 51%
- **Secondary School (10th)** - P.C.P. High School, Lembhai, Odisha | 2018 | 73.66%

CERTIFICATIONS

- NPTEL Certification on Internet of Things (IoT) | Elite (Score: 61%)
- Participated in Agentic AI Hackathon 2025 organized by Hebbale Academy at GIET University.
